Instructions

Under the law, every person or entity must report to a Border Services Officer the importation or exportation of currency or monetary instruments with a combined total value equal to or greater than $10,000 Canadian (or its equivalent in a foreign currency). Failure to report may result in the forfeiture of currency or monetary instruments or the assessment of a penalty.

"**Currency**" means current coins and bank notes of Canada and other countries.

"**Monetary instruments**" means **securities** and **negotiable instruments** in **bearer form** where ownership is conveyed by physical possession. It can include stocks, bonds, debentures, treasury bills, banker's drafts, cheques and money orders, other than warehouse receipts and bills of lading. It does not include securities or negotiable instruments that bear restrictive endorsements or a stamp for the purposes of clearing.

To calculate the Canadian dollar equivalent of a foreign currency, use the exchange rate published by the Bank of Canada at the time of the importation or exportation. If the Bank of Canada does not publish an exchange rate for that currency, use the exchange rate that would be used during the ordinary course of business.
